

STA Summer Math Packet

For

Second Graders Entering Third Grade

Dear Parents of Incoming Third Grade Angels,

Welcome to the 3rd grade! We are so excited to explore 3rd grade mathematics with your children! As you prepare to enjoy a well-deserved summer vacation, we want to pass along a couple of reminders. We are providing you with a packet of addition and subtraction drill sheets. This summer math packet will be collected on the first day of school. Please feel free to make extra copies to continue to drill your student throughout the summer. We also want to encourage your child to continue to use flash cards. Basic computation is the foundation of a successful math experience and flash cards can be a fun way to master these facts. In turn, this practice will only strengthen their fluency, which will continue with them into 3rd grade.

Thank you and we look forward to seeing you all next year!

Sincerely,

Third Grade Math Teachers

Rebecca Reynolds and Jennifer Nettle
